

JACOB JONES

LIGHTING DESIGNER / TECHNICIAN

28 Lost Valley Ct, Saint Peters, United States | (314) 705-4487 | jacobjones10@gmail.com

PROFILE

I am an experienced Lighting Designer with a proven track record of impressive lighting productions. With almost a decade of experience spanning small theatre plays to full scale tours, I can assure you won't regret bringing me on with your team. I have exceeded and continue to exceed client expectations as a Lighting Designer, and I do not hesitate to go above and beyond if possible. When I am in show-mode, I am not only thinking about the show, I also think about what to do in a moments notice when something goes wrong. Because in the show industry, you need to be able to make quick decisions that could impact the entire show. I think that is a trait that makes me stand out from others.

PROFESSIONAL EXPERIENCE

Lighting Technician (Seasonal Intern), Gateway Studios and Production Services **May 2023 — Present**

Chesterfield, MO

My role as a Lighting Intern is to assist in keeping all lighting equipment up-to-par with industry standards. I assist incoming touring crews with the setup of their lighting rig to make sure their experience is as smooth as possible. I also aid in the process of maintaining and repairing all lighting fixtures, giving me exquisite knowledge with top of the line manufactures such as GrandMA 3, Hog 4, Robe, GLP, Clay-Paky, and many other products.

Technical Director, St. Dominic High School **Aug 2022 — Present**

O'Fallon, MO

I oversee hundreds of high school students and aid in making their theatrical performances come to life. My role involves teaching students how to use industry standard equipment in technical theatre from things as simple as how to attach a microphone to their face, or program an entire show on a lighting or sound console. I also assist in technical support from all other areas in the school by overseeing all sound and video scoreboard systems in gyms and stadiums, and many other technical aspects used in an all iPad school.

Lighting Designer, Fake News - A Tribute to Huey Lewis **Dec 2025 — Present**

Belleville, IL

I was brought on to the Fake News / Traveling Salvation Show team to design a new lighting aspect to their touring shows. I provided 3D visuals to assist in their decision on making the change, and worked with them closely to make their new show come to life.

Freelance Lighting Designer **May 2021 — Present**

(Remote)

EDUCATION

St. Dominic High School **Aug 2018 — May 2022**

High School Diploma, O'Fallon, MO

St. Charles Community College **Aug 2023 — May 2025**
